

Instructions

- 1 Print this page. In your printer settings, ensure “Page Scaling” is set to “Actual Size” or “None.”
- 2 Cut out the ruler.
- 3 Measure your desired label area. For items with angles or curves, try taping one side of the ruler to keep it in place. If you’re creating a full-wrap label, we recommend adding an overlap of 0.25”.
- 4 Visit <https://www.onlinelabels.com/sizes> and use the page filters to find a matching label.

Is your ruler the right size?

Place a credit card or quarter on top of the images below. Make sure it fits perfectly within the outline to ensure your ruler is printed to scale.
